

Program Name: Counseling and Human Development, including Clinical Mental Health Counseling and School Counseling

Assessed by - Dr. Kara Kaelber, Chair, Department of Counseling & Human Development

Date/Cycle of Assessment:

Reporting cycle of Fall 2016 – Summer 2017

Mission Statement:

Built on Malone University's Foundational Principles, the graduate programs in the Counseling and Human Development department provide knowledge, practice, and skills through educational and clinical experiences, developing professional counselors as intentional practitioners who advocate for client/student growth and development.

Program Goals

1. Prepare and empower students to become advocates, who practice with multicultural competence, a holistic understanding of human nature, and as problem-solvers in collaboration and consultation with others.
2. Encourage the development of proactive and reflective practitioners, grounded in sound theory and techniques, with an ability to utilize technology.
3. Assist students in understanding the interface between personal faith and one's practice and that people have a spiritual dimension that needs valued, nurtured, and accessed for continued growth and development.
4. Exhibit professional competencies including modeling a professional manner in all settings, demonstrating honed intrapersonal and interpersonal skills, practicing with integrity in an ethical and legal manner, and meeting standards for state licensure and certifications.

Program Intended Learning Outcomes (PILO)	Means of Program Assessment & Criteria for Success	Summary of Data Collected	Use of Results
<p>1. Student will demonstrate the acquisition of initial counseling skills foundational to the counseling process.</p>	<p>The <i>Acquisition of Counseling Skills Assessment</i> is utilized in the COUN 564: Theories and Techniques of Counseling II course, which is offered in the spring and summer semesters.</p> <p>The purpose of this assessment is to evaluate student counseling skills acquisition and development as a baseline early in the program.</p> <p>The data collected allows faculty to assess the individual student as well as the program’s effectiveness in preparing future counselors. Feedback on the students’ performance is given during the course as a final grade. If a student does not achieve a minimum of 80% on this assessment, this student will</p>	<p><u>Spring Semester 2017</u> COUN 564 <i>Acquisition Counseling Skills Assessment</i> data: Malone University graduate counseling students (n=16), had a mean score of 95.0 with a range of scores from 89.0 to 100.0 out of 100.0 possible total points. Each of the graduate counseling students (100%) passed this assessment, scoring higher than the cut percentage rate of 80%.</p> <p>For each domain (criterion) of this assessment, 100% of the students achieved higher than 85%.</p> <p><u>Summer Semester 2017</u> COUN 564 <i>Acquisition Counseling Skills Assessment</i> data:</p>	<p>Compared to 2015-2016 (spring & summer): The 2015-2016 data for this assessment indicated 100% of the students scored above 80% on this assessment. Also, for each domain (criterion) of this assessment, 100% of the students achieved higher than 85%.</p> <p>Recommendations:</p> <ol style="list-style-type: none"> 1. Maintain aspects of this course that promote high achievement on this assessment. 2. Explore potential criteria that could promote higher standards in counseling skill assessment.

A remediation plan will be developed and implemented for subsequent skills building courses (i.e., Counseling Children and Adolescents, Psychodiagnostics) to ensure that the students' performance for other recorded (videotaped) exercises demonstrates the skills expected for that experience.</p> <p>The program as a whole will use the aggregated data to evaluate each specific domain related to counseling skills development. Each domain will be assessed to determine if at least 85% of the students are achieving the expected 80% individual threshold. For all domains that are below 85%, a plan will be developed to remediate this issue. The domains will be assessed in the immediate semester following each section of COUN 564: Theories and Techniques II.</p> <p>Criteria: Malone University graduate counseling students will score</p>	<p>Malone University graduate counseling students (n=8), had a mean score of 90.75 and a range of scores from 83.0 to 97.0 out of 100.0 possible total points. 2. Students will collect and review data from clinical mental health counseling and school counseling literature and formulate their findings in a logical and clear writing manner.	<p>The <i>Review of the Literature Assessment</i> is utilized in EDUC 510: Techniques of Research course, which is offered in the fall and spring semesters.</p> <p>Students are assessed specifically on their abilities to write an introduction, synthesize, critique, and provide implications for their respective counseling fields based on the literature and research they gathered on their chosen topic. Additionally, students are evaluated on their writing mechanics and their ability to adhere to the APA writing format and style.</p> <p>Students who do not achieve 80% or above on this assessment are required to meet with their academic advisor to develop and implement a remediation plan that will</p>	<p><u>Fall Semester 2016</u> EDUC 510 Review of the Literature Assessment data: Malone University graduate counseling students (n=12), had a mean overall score of 43.67, with a range of scores from 40.0 to 47.0 out of 50.0 possible total points. All faculty (both full-time and adjuncts) will be expected to maintain high standards for writing in each course to prepare graduate counseling students for this key assessment assignment and for professional writing, in general.2. The COUN 652 Research and Program Evaluation in Counseling has replaced the EDUC 510 Techniques of Research course. This course was developed to better meet the needs of graduate counseling students and will be taught by a faculty member (full-time or adjunct) who hold a professional counseling license. Data will be

3. Students will demonstrate the capacity to acquire and utilize the dispositions consistent with professional counseling in the areas of clinical and intrapersonal/interpersonal functioning.	<p>The <i>Review and Retention Rubric</i> is administered in each course as a means of evaluating counseling dispositions within the following domains: clinical astuteness, intrapersonal insight/dispositions, interpersonal skills, and professional dispositions. This assessment is intended to evaluate the performance and readiness of each student in areas beyond pure academic ability, typically addressed by graded assignments. The desired outcome is to increase the students' awareness that specific non-academic skills are expected as part of the development of a counseling professional. The evaluation form is structured so that the evaluator rates the student on specified behaviors or attitudes identified within each domain.</p> <p>All domains on the Review and Retention Rubric will be evaluated for trends of students entering and progressing through the program. The academic advisor will be responsible for monitoring the student's progress. 4. Send reminders to all faculty (full-time and adjuncts) to input the <i>Review and Retention Rubric</i> data into TK20 for each course and to identify any students who fall below the cut score of 3.0 on any of the criteria and report this information to the Chair of the department at the end of each semester.

<p>4. Students will demonstrate requisite counseling skills in an external practicum setting with actual clientele indicating a readiness to practice as a professional counselor.</p>	<p>The <i>Requisite Counseling Skills Assessment</i>, utilized in the COUN 630 Counseling Practicum course, evaluates the core counseling skills necessary for the counselors preparing to complete their academic training. Counselor-in-training acquire, demonstrate, and strengthen counseling and human relation skills through the provision of highly structured and supervised individuals and group counseling services. During the Counseling Practicum course (COUN 630), taken toward the end of the students' coursework, students perform a minimum of 40 hours of direct counseling services with actual clients in a designated setting and utilize videotaping to demonstrate their development of their counseling skills. As a summative evaluation in the course, the students record a final session and write a self-critique of their work. <p>6. <u>Clinical Mental Health Counseling Students only:</u> Students will successfully pass the clinical mental health counselor licensure examination, the National Counselor Examination (NCE).</p>	<p>As part of the licensure process in Ohio, students have to complete an examination to be licensed as a Professional Counselor (LPC). The current examination is the National Counselor Examination (NCE) produced through the National Board of Certified Counselors. The results of this examination are sent to the Ohio Counselor, Social Worker, and Marriage and Family Therapist Board for consideration to be a licensed professional counselor. The passage of this examination indicates that the student has mastered the requisite knowledge for licensure within Ohio and, therefore, the ability to practice counseling under appropriate supervision. Total passage rates and each sub-category on the NCE will be evaluated to ensure that students are achieving at 85% overall in each area. Any sub-category not meeting the 85% threshold will be addressed with appropriate action steps taken.</p>	<p><u>2016</u> The Ohio Counselor Social Worker and Marriage and Family Therapist (OCSWMFT) Board, who issues counseling licenses, did not provide a breakdown between the NCE pass rate and the NCMHCE pass rate. The NCMHCE is a licensure exam that graduates take no sooner than two years after receiving their first level of licensure (LPC) after passing the NCE. Typically, the pass rate for the NCMHCE is significantly lower than the NCE. Therefore, we do not have an accurate pass rate for the NCE in 2016. The Program Director requested this information from the Executive Director of the OCSWMFT Board and a breakdown of each sub-category for future NCE pass rate reports.</p> <p>The combined pass rate for both the NCE and NCMHCE for 2016 was 85.37% (n=41).</p>	<p>Compared to 2015: The NCE pass rate was 92.9% (n=14).</p> <p>Recommendations:</p> <ol style="list-style-type: none"> 1. Continue to request data from the CSWMFT Board on the NCE for pass rates and percentage pass rates on each sub-category within the NCE. 2. Once the sub-category percentages can be identified, analyze the data to determine which courses can be improved to promote acquisition of knowledge and pass rates. 3. Continue providing students with NCE study resources. 4. Discuss options for providing a workshop to prepare LPCs who have graduate from Malone University to prepare for the NCMHCE.

<p>7. <u>School Counseling Students only</u>: Students will successfully pass the school counselor licensure Examination, OAE 040.</p>	<p>As part of the licensure process in Ohio, school counseling graduate students have to complete an examination to be licensed as a School Counselor. The current examination is the Ohio Assessment for Educators (OAE 040). The passage of this examination indicates that the student has mastered the requisite knowledge for licensure within Ohio and, therefore, the ability to practice school counseling.</p> <p>The results of this examination are sent to the Ohio Department of Education who forwards the results annually to Malone as part of the criteria for being licensed as a professional school counselor.</p>	<p><u>2016-2017:</u> The OAE 040 pass rate for School Counseling students was 75% (n=12). One student took the OAE 040 4 times; failing it 3 times and passing it the 4th time. The remainder of the students who took the OAE 040 passed it on the first try.</p>	<p>Compared to 2015-2016: The OAE 040 pass rate for School Counseling students was 100% (n = 17).</p> <p>Recommendations:</p> <ol style="list-style-type: none"> 1. OAE 040 study materials have been compiled. Continue to send these student materials to all students enrolled in internship. 2. Maintain the high standards leading of the School Counseling Program. 3. Provide additional training for School Counseling adjunct instructors to improve the quality of the program. 4. Advocate for the hiring of a full-time School Counseling faculty member to make significant improvements to the School Counseling Program.
