## Covid-19 Policy and Consent to Return to Field for Junior SWK Majors

As a student at Malone University enrolled in a field experience/clinical course, I wish to continue my education by completing my field/clinical experience as part of my program. As a member of the Malone University community, I have an important role to play in keeping myself, the Malone community and those that I will be exposed to as part of my field/clinical experience safe by doing my part to stop the spread of COVID-19.

I also understand that despite all reasonable efforts by myself, the university or the placement site that I will be completing my experience, I can still contract COVID-19 and other infections. In order to reduce my risk, I agree to be an active participant in maintaining my own health, wellbeing and safety, as well as the safety of others, by following all the guidelines and expectations outlined by the university and the placement site at which I will be completing my field/clinical experience.

There is currently no vaccine to prevent coronavirus disease 2019 (COVID-19). Older adults and people who have severe underlying medical conditions like heart or lung disease or diabetes seem to be at higher risk for developing serious complications from COVID-19 illness (CDC, 2020).

### Field Experience/ Clinical Policy:

1. Students must take their temperature before leaving home. The CDC defines a fever of 100.4 degrees Fahrenheit or higher. If fever is noted, do not report to field/clinical site and contact your advisor and/or preceptor. CDC guidelines will be followed for your return to the facility.
2. Students must adhere to all facility policies and protocols.
3. Take all measures to reduce the spread of Covid-19.
4. All personal items (except those that can fit in your pockets) must be kept in your car.
5. If you become symptomatic while at your field/clinical site, immediately leave the site and contact Malone Health Services (330-471-8340) or your local health department for further instruction.

### Take every day preventative steps (CDC, 2020)

- Wash your hands frequently.
- Avoid touching your eyes, nose, and mouth.
- Stay home when you are sick.
- Cover your cough or sneeze with a tissue, then throw the tissue in the trash.
- Clean and disinfect frequently touched objects and surfaces.
- Be prepared if your child's school or childcare facility is temporarily dismissed or for potential changes at your workplace.

**Watch for symptoms (CDC, 2020)**

People with COVID-19 have had a wide range of symptoms reported – ranging from mild symptoms to severe illness.

Symptoms may appear **2-14 days after exposure to the virus**. People with these symptoms or combinations of symptoms may have COVID-19:

- Cough
- Shortness of breath or difficulty breathing

*Or at least two of these symptoms:*

- Fever
- Chills
- Repeated shaking with chills
- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell

Children have similar symptoms to adults and generally have mild illness.

This list is not all inclusive. Please consult your medical provider for any other symptoms that are severe or concerning to you.

**CONSENT FORM**

If you are considered high risk, it is recommended that you **DO NOT** return to field/clinical experiences at this time.

If you feel uneasy about returning to field/clinical experience, you may take an incomplete for SWK 222 The Introduction to the Profession and Practice of Social Work. You should contact Bekka Russell, Field Director of Malone’s Social Work Program, to develop a plan for resuming your field/clinical experience in the future.

Please check the appropriate box and sign this consent form.

I **will** return to field/clinical experiences.

I understand all risks associated with returning to field/clinical experiences regarding Covid-19 exposure. I will adhere to the policies of each agency and Malone University.

I **Will Not** be returning to field/clinical experiences at this time. I will contact Bekka Russell to coordinate a plan for future field/clinical experiences.

The final action regarding any such

matter will not be taken until the pertinent concerns about the student intern have been discussed with the student and with the appropriate Agency and University personnel (if reasonably feasible to do so); but such internship experience may be suspended at any time, pending further review and determination as herein provided.

The objective of the Junior Field Experience is to introduce students to group, organization and community level social work practice. The experience provides introductory exposure to community assessment and intervention work, organizational and community dynamics, and social welfare policy. The goal of the Junior Field Experience is to assist students in understanding the importance of community and organizational level practice. Ideally, students should be exposed to social work intervention and practice focused on the macro-levels, or community and organizational levels, of intervention, but also may be involved in some micro (individual) and mezzo (family and group) level experiences that take place towards meeting goals at the community level. **Please indicate after each responsibility how you believe this goal assists the student to understand of macro level (community and/or organizational) practice.
