SOCIAL WORK PROGRAM MISSION STATEMENT

The Malone University Social Work Program draws on its unique context as an Evangelical Friends institution with access to urban, rural, and international practice opportunities to prepare entry-level social work practitioners who are capable of culturally appropriate practice across populations who promote social justice and who can ethically integrate Christian faith with social work practice. This foundation fosters the growth of practice wisdom and scientific inquiry with an overarching purpose of enhancing the quality of life for micro, mezzo, and macro systems in relation to their environment.

Program Goals:

1. Prepare students for beginning generalist social work practice. This includes developing entry level competency across system levels, meeting licensure requirements, and developing an awareness of the importance of ongoing professional development
2. Assist students to recognize their own heritage and traditions and to gain knowledge and perspective to engage people from cultures, ethnic groups, and religions different from their own.
3. Assist students to understand the interface between personal faith and social work, and to be able to make appropriate applications of each.

PLEASE NOTE:

The department would like to note our assessment strategy has changed as a result of our successful reaffirmation from CSWE. The following social work assessment report reflects the realignment with the new 2016 EPAS competencies that are now in place for social work accreditation. These will now stand until our next reaffirmation in 2022.
